Shawn,

I recall that Big Sky airlines went out of business in about 2008. There is not an airport in Omaha (population about 165). I think last time you may have flown into Harrison, AR (Boon County Regional Airport) but I wasn't able to locate a flight from Dallas to Harrison without using two different Airlines. If you are willing to use two airlines, American Airlines has a flight departing DFW at 7:05am – arriving Kansas City (MCI) at 8:40. Then you could connect to Seaport Airlines (see below) flight departing MCI at 9:10am - arriving Harrison at 10:20am. Departure would be from Harrison at 4:25pm – arriving MCI at 5:35 followed by AA departing at 7:15pm – arriving DFW at 8:55pm. Does your office use a travel agent or service that you can consult?

Jean
